

AYCH YOUTH SUMMIT

ONLINE
March
22nd > 25th

DESIGNING NOW FOR A BETTER TOMORROW

The purpose of the Youth Summit is to encourage reflections around 3 challenges that have been at the core of AYCH's actions: **Social Entrepreneurship**, **Creative Education** and **Workforce of Tomorrow**. At this event, we provide an opportunity to young people to think, to present and to share their vision to their peers and a wider audience. AYCH is providing the framework for young people to work collaboratively to build official recommendations for an Agenda 2030 and is committed to raise this at a European level.

From March 22nd to 25th 2021, Brest Métropole will host this online event. AYCH has invited speakers from all over the world to debate our 3 Challenges and to create an **Agenda 2030: 30 recommendations for a future Creative Europe**.

We also want to celebrate the amazing work which has been produced by young people involved in AYCH, their products, accomplishments and hopes and dreams. Importantly we want this Youth Summit not to be the end of AYCH but the beginning of our **AYCH Legacy**, where we continue with our mission and share our learning and tools freely.

PROGRAMME
